- Domestic Use

DESCRIPTION
Mountain Breeze tablets are perfumed evaporating tablets manufactured from pure paradichlorobenzene crystals.

Mountain Breeze tablets are small yellow, compressed tablets.

Mountain Breeze tablets provide a penetrating deodorant when exposed and also provide a level of disinfecting and insecticidal action.

DIRECTIONS FOR USE
Mountain Breeze tablets are suitable for use in lavatories, urinals, hotel bars, theatres, sick rooms and all public places. Simply replace as required.

Because Mountain Breeze tablets are compressed they are long lasting and do not readily wash away.

SAFETY INFORMATION
Mountain Breeze is 99.5% paradichlorobenzene, which is a harmful substance. The following general First Aid procedures apply:

- If poisoning occurs contact a doctor or Poisons Information Centre. Phone New Zealand 0800 764 766.
- If aspirated into the lungs, remove from exposure.
- If swallowed, do NOT induce vomiting, give water to drink and seek medical attention.
- If in eyes, hold eyes open, and flood for at least 15 minutes and see a doctor.
- If skin or hair contact occurs, remove contaminated clothing and wash skin thoroughly with water.
